# Author index to volume 14

Alexander, David, *Resource use and U.S. manufacturing productivity growth*, 3:389–407

Alvi, Eskander, *Effort-inducing contracts*, 4:523–545

Araújo, Jorge Thompson. *See* Joanilio Rodolpho Teixeira

Bahmani-Oskooee, Mohsen, *On the effects of U.S. federal deficits on its trade flows*, 1:72–82

Ballard, Bill, *Comment on "the Keynesian theory of the price level: an econometric evaluation using a vector autoregression model,"* 4:561–562

Belman, Dale, *Workgroups, efficiency wages, and work effort*, 4:497–521

Bernstein, Herbert, *Comment: The savings concern: should small potatoes dominate the feast?*, 2:281–282

Blecker, Robert A., *Structural roots of U.S. trade problems: income elasticities, secular trends, and hysteresis*, 3:321–346

Bloch, Harry, *Postwar movements in prices of primary products and manufactured goods*, 2:249–266

Brockway, George P., *Further comment on executive salaries*, 4:573–575

Bunting, David, *Savings and the distribution of income*, 1:3–22

Carter, Michael, *Uncertainty, liquidity and speculation: a Keynesian perspective on financial innovation in the debt markets*, 2:169–182

Crotty, James R., *Neoclassical and Keynesian approaches to the theory of investment*, 4:483–496

Dall'Acqua, Fernando. *See* Luiz Bresser Pereira

Dalziel, Paul C., *Does government activity invalidate the Cambridge Theorem of the rate of profit? A reconciliation*, 2:225–231

*A note on Dalziel's model of long-run distributive equilibrium: reply*, 1:121–124

Davidson, Paul, *Introduction to symposium on the Neoclassical and Post Keynesian approaches to the theory of investment*, 4:423

Drago, Robert. *See* Dale Belman

Dutt, Amitava Krishna, *Expectations and equilibrium: implications for Keynes, the neo-Ricardian Keynesians, and the Post Keynesians*, 2:205–224

Dymski, Gary A., *A "new view" of the role of banking firms in Keynesian monetary theory*, 3:311–320

Estenson, Paul S., *The Keynesian theory of the price level: an econometric evaluation using a vector autoregression model*, 4:547–560

Should I difference?, 4:563–565

Fried, Joel, *Financial theory and the theory of investment*, 4:465–481

Goodhart, C.A.E., *Is the concept of an equilibrium demand for money meaningful? A reply to "has the demand for money been mislaid?"*, 1:134–136
